Individual Course Details and Registration Online at www.ip3.org

The Institute for Public-Private Partnerships, Inc. (IP3) is an international capacity building firm that focuses on advancing **public-private partnership** programs and opportunities, **infrastructure regulation** operations and management initiatives, and **competitive utility management** reform in the environmental (water/sanitation and solid waste), energy, transportation, technology, municipal service, health, and education sectors. IP3 provides training and consulting services on the requisite legal, regulatory, financial, managerial, technical, and institutional requirements for successful program/project design, implementation, and monitoring.

Our clients include national/state/local government agencies, regulatory bodies, utilities, donor organizations, non-governmental organizations, and private businesses. Since 1994, we have trained over 25,000 professionals from 175 countries worldwide.

Clients interested in developing comprehensive skills in our training areas can select from menu of course offerings, negotiate with IP3 to design and deliver a customized training program on any technical, policy, or management topic, or attend an online course. IP3 experts work with each client to recommend the most effective training program and/or set of programs to meet each institution's needs.

Capacity Building Services

Off-the-Shelf classroom courses

(generally one or two-weeks in length) that are regularly scheduled and conducted in Washington DC.

On-Site and Customized programs

specifically tailored to the needs of individual ministries, agencies, regulatory bodies, local governments and utilities.

Group Online and Self-Paced courses

conducted over the Internet. View course demo to learn more about this high value/low cost training delivery system at www.ip3.org, and click on "View Online Demo".

Accreditation

Since 2001, IP3 has been accredited as an Authorized Provider of the International Association for Continuing Education and Training (IACET) and as such may award Continuing Education Units (CEUs) to all our participants attending any and all our off-the-shelf, customized, regional, and online training products and services. CEUs can be used for maintenance of professional affiliation with an institution or professional advancement in organizations as well to earn credit in IP3's professional certification programs described below.

Professional Certifications

All relevant training courses and services allow participants to earn continuing education units (CEUs) towards one of three specialized certification programs jointly sponsored by IP3 and the Water, Engineering, and Development Centre (WEDC) of Loughborough University, U.K.:

Certified Public-Private Partnership Specialist™
Certified Regulation Specialist™
Certified Utility Management Specialist™

These certification programs are geared towards professionals interested in building a comprehensive body of knowledge and enhancing their career path in one of these three emerging professional fields (additional information on certification, including enrollment, can be found at www.globalcertifications.org). Over 500 professionals worldwide are working towards their certification.
