

P-15 Applying Your Public-Private Partnership Skills

Course Description

In this course, participants will learn how to combine the new skills and knowledge they have gained in each of the previous P-series courses (P-10, P-11, P-12, P-13, and P-14) and apply them to a practical, real-world PPP project action plan.

Using real-world case studies, participants will carry out crucial steps in the PPP project management cycle. Understanding the PPP framework requirements, the participants will select an appropriate PPP project based on evaluation criteria; plan and review PPP feasibility analyses; identify, analyze, and allocate PPP risks; and plan and manage PPP performance monitoring and contract management functions.

Following this course, participants will understand the PPP project management cycle holistically, how each of the key phases and tasks inter-relate, and will be able to manage the practical, real-world challenges, requirements, and constraints to planning and implementing PPP projects.

Learning Outcomes

Through successful completion of this course, participants will be able to:

- Evaluate the practical requirements of the existing PPP framework for PPP project selection, management, approval, and completion
- Apply appropriate PPP project screening criteria and select a candidate PPP project for implementation
- Plan the key practical steps, resources needed, and decisions to be made to complete a PPP feasibility study, including overseeing PPP specialist consultants
- Identify, analyze, and allocate PPP risks for developing a bankable and affordable PPP project business case
- Develop a plan for conducting PPP tendering and procurement
- Oversee and support the processes and negotiations for PPP projects to reach both commercial and financial closure
- Develop practical strategies for managing the PPP contract and monitoring performance

Online Learning at its Best

IP3's two-week online courses allow participants to interact with top instructors and their own peers to develop a more in-depth understanding of the PPP landscape.

These courses "meet" online for live video webinar sessions that deliver students the opportunity to ask questions and receive speedy answers, much like our in-classroom courses. In between sessions, students have access to myriad resources, including video presentations, interactive discussion forums, and quizzes and knowledge checks.

Online Learning Includes

Four 2-Hour
Interactive
Webinars

Two Hours
Self-Paced
Online Learning

Continuing
Education Unit
(CEU) Awarded

Course Offering

Online Learning

Dates: November 1 - 12, 2021
